FUEL**

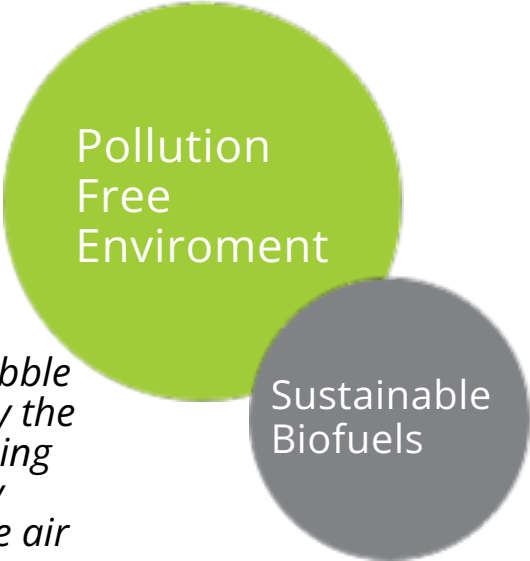

SHUBHSHREE BIOFUELS ENERGY LIMITED is fully committed toward establishment of mutual reinforcing ecosystem. Our goal is to create a balance between the increasing demands of the industry and the available supply. We achieve this by promoting and nurturing sustainable and green biomass fuel, ensuring an inclusive supply of raw materials.

Over the years, we have developed a profound understanding of the sector's specific needs, attracting notable clients along the way. Our prominent presence in the sector includes being the preferred supplier for a wide base of customers.

Today, as we embark on our transformational journey, we are dedicated to our goal of becoming one of the foremost providers of sustainable biomass energy solutions for power plants, process boilers, and furnaces across various industrial sectors in India.

VISION

Addressing the alarming stubble or parali pollution caused by the widespread practice of burning thousands of acres of paddy fields, which results in severe air degradation.

MISSION

Creating sustainable biofuel from residual waste materials offers a high-quality alternative energy source, essential for preventing the irreversible depletion of fossil fuels.

SHUBHSHREE BIOFUELS ENERGY LIMITED

Delivering cost-efficient sustainable biomass fuel to Indian industries, harnessing the country's indigenous and natural resources, and aiding in creating a pollution-free environment.

ABOUT US

SHUBHSHREE BIOFUELS ENERGY LIMITED is a biomass briquettes and pellets manufacturing and supplying company with over 10+ years of rich experience.

Specializing in sourcing bio-waste and converting it into valuable, sustainable, and assuredly qualitative energy source briquettes & pellets, our purpose is driven by unlocking the true potential of our agricultural waste resources and creating value for the societies and communities to which it belongs.

BIO ENERGY

Residual Biomass Aggregation & supply chain

Produce High Quality Briquettes/ Pellets Products

Industrial Ongoing Contracted Supply

OUR JOURNEY

Shubhshree Biofuels Briquettes & Pellets Supply started

2013

Residual waste Raw material from 16+ Villages

2014

More then 500+ farmers got Employment

2015

Span of delivery Across 3 states Started

2016

WHAT IS BIOMASS BRIQUETTES & PELLETS?

An eco-friendly process converts agriculture, forestry, and industrial waste into solid blocks of biofuel known as briquettes and pellets. These small-sized cylindrical-shaped solids are made by compressing mustard waste, groundnut waste, rice husk, paddy straw, sawdust, sugarcane waste, and other agricultural waste without using any chemicals or adhesives.

Briquettes and pellets offer a very high gross calorific value (GCV), ranging from 3000 GCV to 4800 GCV. The production plants at Shubhshree Biofuels Energy Limited convert these into high-yielding briquettes and pellets, which are then distributed across states to our end-users—biofuel process boilers and furnaces—using dedicated transportation.

LONGER BURNING DURATION

compressed briquettes burn for a lot longer

CONCENTRATED FORM OF ENERGY

use of compressed combustible material

HIGHER AND EFFICIENT HEATING

Intense heat, Higher Calorific Value 3k-5k

LESS SMOKE OR LITTLE FLY ASH

Low smoke, soot toxic gases or carbon deposit

RAW MATERIAL SOURCES

Available from agro based & plant based Biomass

SUSTAINABLE RAW MATERIAL

Organic & Recyclable bio-mass as raw material

50 tones of supply per day Achieved

Delivery to 8+ States on dedicated Transportation fleet

SHUBHSHREE BIOFUELS ENERGY LTD new plant setup commenced

Capacity to deliver 100+ tones of Biomass Briquettes & Pellets

OUR INFRASTRUCTURE

Our briquettes and pellets boast higher bulk density and lower moisture content compared to conventional biomass. This characteristic enables significant smoke reduction during ignition and longer burning times, thereby maximizing fuel efficiency and saving money for our customers.

[5000+ FARMERS
Involved in Utilizing Their
agricultural waste]

We take pride in our advanced infrastructure and processes. Our units are well-furnished with the latest technologies, machinery, and accessories that undergo periodic upgrades and maintenance.

Departments are headed and managed by a skilled raw material sourcing network for a continuous flow of raw material to run the machines economically. All of this is backed by a dedicated fleet of delivery logistics, which is the key that allows us to produce superior-grade products, offer competitive rates, and deliver on time, every time.

Advanced Infrastructures

Skilled Manpower

1,00,000+ Metric Tons of
briquettes & Pellets Supplied
to Customers till date.

SOME OF ESTEEMED CLIENTS:-

WHO WE CATER:-

Ceramic Industry

Pharma Units

Fabric & Textile Units

Food Process Units

Dyeing Plants

Liquor Plant s

Leather Industries

Chemical Units

Spinning Mill

Brick Work Units

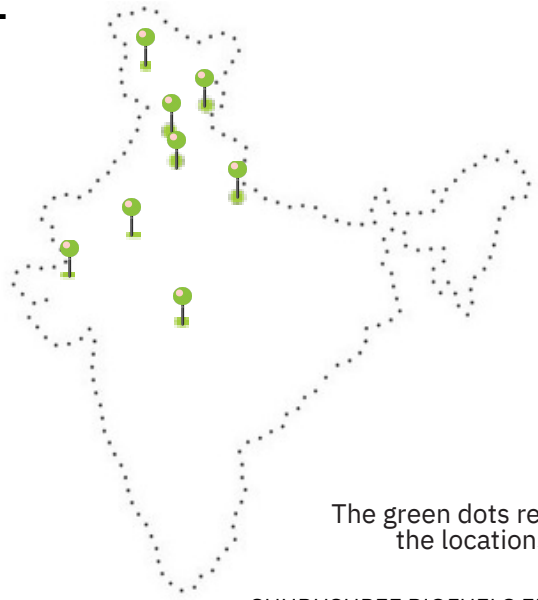

Tyre Industries

Thermal Industries

OUR REACH SO FAR:-

Our Sales & Services team is strategically positioned in all industrial hubs across North India to deliver customers the right materials, day-to-day support, and service, ensuring prompt attention and responses to customer needs and demands.

The green dots represent the locations where

SHUBHSHREE BIOFUELS ENERGY LIMITED is already supplying

DELHI & NCR, UTTAR PARDESH, HARYANA, PUNJAB, RAJASTHAN, UTTRAKHAND, HIMACHAL PRADESH, JAMMU, MADHYA PRADESH.

UPCOMING PROJECTS

BIOMASS PELLETS TORREFIED PLANT WITH MINIMUM 200 TONES PER DAY CAPACITY

01

02

100 TONES OF BIOMASS BRIQUETTES & PELLETS PRODUCED FROM PADDY RESIDUE. TO REDUCE THE POLLUTION IN NORTH INDIA

6MM PELLETS FOR COMMERCIAL USE (BURNER FUEL) PLANT WITH MINIMUM 50 TONES PER DAYS CAPACITY
